

Simply the Best!

Northwest Mechanical Group's main focus is on what we value— our customers, our vendors, our employees, and our community. We believe in doing the job right the first time, every time, standing by our workmanship, and providing warranties on our products and services. Northwest Mechanical Group specializes in commercial refrigeration, HVAC, and plumbing. We pride ourselves in our expertise in low temp grocery store refrigeration construction/service and HVAC/refrigeration maintenance agreements.

WHY DO COMPANIES HIRE US?

Since its inception, Northwest Mechanical Group has been committed to bringing satisfaction to every customer. Our team of highly trained service professionals works closely with our customers to install, maintain, and repair their commercial refrigeration units and HVAC systems. Northwest Mechanical Group works in partnership with your company to keep your equipment running at peak efficiency, thereby reducing costs and allowing your business to realize its return on investment rapidly.

WHY WE ARE DIFFERENT

We are a union contractor. How does this benefit you? This means our technicians are fully qualified, licensed, and trained professionals. Also, as union journeyman tradesmen, continuing education is required. As a company, we not only encourage but demand continuing education among our employees - who go above and beyond to maintain our licenses. Northwest Mechanical Group proudly goes above and beyond to obtain all licenses and certifications for all cities and states where we perform work.

WHERE WE SERVICE

Oregon and Southwest Washington

CASE STUDY

A customer had a power spike that erased the program on their control system, was able to repair and reprogram the system getting them back online the same day saving them tens of thousands of dollars in product loss along with providing them a solution to prevent this from happening again

“ A big thank you to Kirk and your team for catching these issues before they become ‘issues’ ”
